

Services for Adults at Risk of Opioid Use

An estimated 2.1 million Americans live with Opioid Use Disorder.

The Council on Recovery offers services to all adults - including specialized services for older adults - at risk of opioid use, as well as their families. If you or a loved one is struggling, call us today. Our compassionate team of substance use and mental health professionals are ready to respond with the personalized services you need to recover and thrive.

Note: The Council serves people of all ages and backgrounds in need of treatment & support.

What We Provide:

- Screening and brief intervention
- Education specific to opioid use disorder (OUD)
- Supportive counseling
- Intensive case management
- Connection to our Outreach, Screening, & Referrals services, if necessary
- Outpatient treatment services

You know someone who needs us.
